

GENESIS®

950 CONCENTRATE

For use on pressroom floors, walls, machinery and equipment as a general cleaner and degreaser.

Genesis® 950 Concentrate is not a solvent, but alters hydrocarbons of printing ink, grease, tar, vegetable oils, grime/soot and other materials into a soluble mass. Because Genesis® 950 Concentrate is a trigger chemical, water must be used as the final cleaning agent.

For heavy cleaning/degreasing of engines, transmissions and wheels: use full strength and allow to soak for 30 seconds to 1 minute, scrub surface and flush off with water. For tools, concrete and heavy stains on upholstery or carpet: leave on surface for 30 seconds to 1 minute, brush surface and water rinse. (Note! test small area of carpet first to insure product does not lighten color.) For floors, painted woodwork, automotive-painted-chrome-stainless-plastic surfaces, bug and road oil removal: use a mix ratio of 7 parts water to 1 part Genesis® 950 Concentrate. For shop rags: use 1/2 cup of Genesis® 950 Concentrate in washing machine, allow rags to soak for 5-10 minutes before placing machine in automatic wash cycle. Do not use Genesis® 950 Concentrate in direct contact with food, medical or for garment cleaning use.

VOC METHOD 24: 1.3 lbs. per US gallon in concentrate

Genesis® 950 Concentrate does not contain any reportable level of SARA Title 313 or HAPS Chemicals.

FEATURE	BENEFIT
 Very effective cleaner and degreaser	 Can be used to clean up oil, grease, printing ink, dirt and other difficult to clean materials
 Genesis® 950 Concentrate is safe to use on painted metals, plastics, concrete, carpet and other materials	 One product replaces several
 Low VOC	 Reduction in reporting
 No regulated toxins	 Improved employee and community safety

PACKAGING

Pint (9 per case)
Quart (9 per case)
2.5 Gallon Cube
5 Gallon Cube
